Air Quality Forecast for the UK

Issued by the Met Office

Today: Westerly winds across northern UK, along with a band of rain gradually working its way south across England and Wales will ensure air pollution levels remain Low on Sunday.

Tomorrow: Air pollution levels are expected to remain Low across the UK on Monday.

Outlook: Mainly Low, however, where winds fall light, pockets of Moderate pollution could potentially build-up, especially near urban sources. This is most likely across the Central Belt of Scotland on Wednesday.
